Ishii Manufacturing was established in the 1961. We specialize in designing, development and manufacturing of poultry processing equipment and machines. With a history & experience of over 52 years, we are an industry leader and have been providing solutions to major broiler companies in Japan.

Ishii Manufacturing has always focused on improvement and development of poultry processing equipment and machines in order to ensure supply of safer poultry meat. With continuous improvement in products and services, Ishii Manufacturing has been contributing to food safety and society in turn.

Not only in Japan, Ishii manufacturing is looking at the global market and is challenging the fast growing Asian market to enhance its corporate value.

We are adding value to the industry and contributing to the society and firmly that believe through our products and services we are adding new value to the customer, enhancing the corporate value and contributing to the society.

We appreciate your continuous support and cooperation and look forward to servicing you again.

Michio Ishii  
Chairman  
Ishii Manufacturing Co.,Ltd.
